P&Bhusri

Art Fuses Into Life.

We are P&Bhusri.

Our collection of luxury heated warmers stand at the intersection of international design inspiration and global manufacturing prowess. We strive to satisfy our customers' unique tastes with category defying form and finishes. We aim to exceed their expectation of value with the highest committment to quality and performance.

At P&Bhusri, design is more than aesthetics. It is a way of life—where beauty meets purpose, where art can be functional, and where every piece brings warmth and character to your home.

Founded in 2010, P&Bhusri was created with a simple vision: to blend art, design, and uncompromising quality into the bathroom experience. Relying on a decades of prior expertise in the kitchen and bath industry, our founder set out from the very beginning to build a brand that elevates everyday living through both beauty and functionality.

For more than a century, the towel warmer has signaled bathroom luxury, symbolizing elegance and comfort. At P&Bhusri, we inherit and carry forward that legacy, reinterpreting it through innovation, refinement, and craftsmanship.

Through years of dedication, our towel warmers have become home to private residences and renowned hotels throughout Europe, the Middle and Asia. P&Bhusri is proud to now offer our collections to the North American market as well. Each product we create reflects our philosophy: that art should inspire, function should endure, and the spaces we inhabit should always feel like home.

ULTIMATE CRAFTSMANSHIP

At P&Bhusri, attention to detail forms the foundation of everything we create. From selecting the finest materials to carefully managing every phase of production, our commitment to quality craftsmanship is without compromise.

We utilize the latest in manufacturing technology combined with the care of experienced artisans to achieve a hand-finished piece worthy of any bathroom.

EVERYDAY MASTERPIECES

At P&Bhusri, we collaborate with designers, architects and sculptors from around the globe to bring art and aesthetic into your everyday life.

These collaborations provide the inspiration for our towel warmer designs. Our engineering team transforms idea into beautiful, functional pieces for your home.

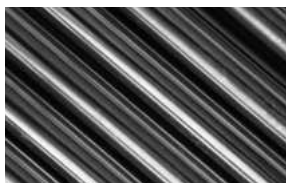

Each piece combines art and architecture, innovation and craftsmanship, making daily routines feel a little more special.

Beyond Warmth, Focused on Wellness.

Advanced Heating & Hygiene

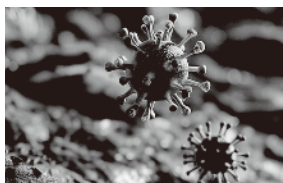

Health, Safety & Luxury for Your Bathroom

Designed for American homes, where comfort meets peace of mind.

Premium Antimicrobial Build

Crafted with corrosion-resistant stainless steel and copper—materials engineered to resist bathroom humidity and naturally inhibit microbial growth.

Anti-Microbial & Antibacterial Protection

Heated towel racks may significantly reduce microbial and bacterial growth on daily wetted towel versus air drying.

Safety-Focused Overheat Protection

We care about your safety. All of our towel warmers are designed and equipped with overheating protection. Whether you elect for our standard built in push button/knob control or opt for our optional digital knob controls, each towel warmer is designed to prevent excessive temperatures to reduce the risk of accidental injury or internal heating element damage.

Engineering That Sets Us Apart.

OUR ELECTRICAL COMPONENTS

Smarter Installation

Why is choosing concealed rough-in installation the smarter choice?

- 1 Safer wiring — reduces installation risks.
- 2 Easier installation — saves time and effort.
- 3 More secure mounting — stays firm during long-term use.
- 4 Ensures seamless finished aesthetic — no more need for generic cover plate at the foot of the unit.

Product Model	Product Dimension (H x W x D, in)	Description	Retail Price (USD)

NOTE Please specify the pre-installed cord length at the time of ordering: XA-TB-2 (2 meter cord), XA-TB-5 (5 meter cord), XA-TB-10 (10 meter cord), XA-TB-15 (15 meter cord).

When I began to conceive this thermostat panel, I was eager to break the boundaries of "functionality first" - it should not merely be a cold control tool, but a symbol of life that carries culture and emotions. So, Nordic runes came into my design field of vision.

Those symbols engraved on ancient stone tablets and passed down for thousands of years conceal the Nordic ancestors' reverence for nature and their wishes for life. SOWILO is their passionate yearning when they gaze at the sun, and FEHU is their abundant expectation during the harvest season. I want to incorporate this profound humanistic spirit into the most everyday temperature control scenarios: when you turn the knob on the left to adjust the temperature, SOWILO's "warmth and power" will flow along with the scale, making the temperature rise not just a numerical change, but also an injection of the energy of the Nordic warm sun. As the timing knob on the right turns, the "Prosperity" of INGWAZ and the "Protection" of THURISAZ emerge one after another, like the piety of a prayer wheel. Each turn is a silent remembrance of a better life.

This is not a simple accumulation of retro elements, but rather a rebirth of Nordic symbol culture in a modern form. It is hoped that it will become a bond connecting the past and the present - in the moment you regulate the temperature, you can touch the warmth of a thousand years of humanistic warmth, making the pursuit of comfort resonate with the yearning for abundance, peace and rebirth, and turning every operation into a gentle prayer for a better life.

Power-On: The indicator light on the panel illuminates white, and the product enters standby mode.

Indicator Light Operation Status: The indicator light flashes in a breathing pattern when the product is in operation; it remains steadily on when the product is in standby mode.

Temperature Adjustment (Left Knob):
The two gears ranging from "♠" to "♦" are standby gears.
Within the right half-circle of the range from "♠" to "♦": Turning the knob clockwise gradually increases the temperature, while turning it counterclockwise gradually decreases the temperature.
Within the left half-circle of the range from "♦" to "♠": Turning the knob clockwise also gradually increases the temperature, and turning it counterclockwise gradually decreases the temperature.

Timer Setting (Right Knob):
The gear marked "I" is the continuous operation gear. There are 12 gears in total. When the knob is turned clockwise, the timer durations corresponding to the gears in sequence are: 2, 4, 6, 8, 10, 12, 14, 16, 18, 20, and 22 hours.
Among these gears: one "♣" corresponds to a 6-hour timer, another "♠" corresponds to a 12-hour timer, and the third "♣" corresponds to an 18-hour timer. These three marked gears can be used to quickly locate the desired timer gear.

Reset Instructions After Timer Expiry:
The product operates at the current power level for the set duration, then stops heating. The indicator light switches to a steady-on state. Rotate either the temperature adjustment knob or the timer knob arbitrarily to restart the product at the current gear settings.

NOTE

Please specify the pre-installed cord length at the time of ordering: XA-TB-2 (2 meter cord), XA-TB-5 (5 meter cord), XA-TB-10 (10 meter cord), XA-TB-15 (15 meter cord).

- 1.Power On: Press the temperature control knob lightly to turn on the device. After powering on, the temperature indicator light and the time indicator light on the screen will illuminate.
2. Temperature Adjustment: When the device is powered on, rotating the temperature control knob will enter the temperature adjustment mode. Different temperature settings will flash, representing 4 temperature levels (| 1 2 3 4), with the corresponding temperatures being 102.2°F, 107.6°F, 113°F, and 118.4°F . After selecting the desired temperature, gently touch the temperature control knob or wait for 3 seconds without any operation to confirm the temperature setting. Once confirmed, the screen will return to the initial interface.
3. Timing: In the initial interface when the device is turned on, double-click the temperature control knob to enter the time adjustment mode. Different times will flash through 6 timing positions (∞ 4 6 8 12 24). Select the duration for heating. Lightly touch the temperature control knob or wait for 3 seconds without any operation to enter the corresponding timing state. Note: What is displayed on the screen is the remaining time. Note: The symbol ∞ represents continuous heating.
4. Power Off: When the device is powered on, by pressing and holding the temperature control knob for two to three seconds, the device will enter the power-off state. In the power-off state, the logo indicator light will be on, but there will be no temperature level indicator or remaining time ndicator.

OUR COLORS & FINISHES

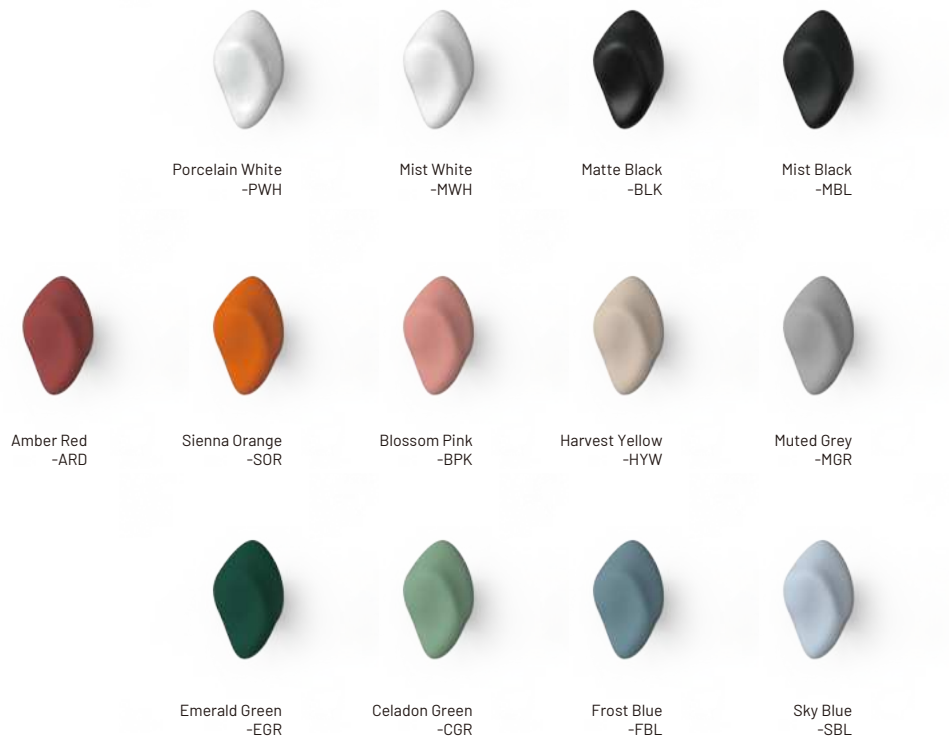

Design Without Limits

P&Bhusri offers a wide range of colors and finishes to suit your style—including many crafted with our durable PVD Lifetime Finish. Each option is designed to make a bold statement in your space while delivering long-term performance you can rely on.

PERFORMANCE
INNOVATION
DESIGN
AESTHETICS.

LIFE IS ART.

COLORS

When selecting colors, it's important to consider how sunlight enters the room. Spaces with limited natural light benefit from brighter, lighter tones to enhance brightness, while rooms that receive abundant sunlight can be balanced with cooler shades. In narrow or low-ceilinged areas, cool colors help create a more spacious feel, whereas warm tones can make large, open rooms feel cozier and more inviting.

In life, every person is a master of their own story.

MASTER

Boat of sage

The Boat of Sage is a sculptural luxury towel warmer that combines pure artistry with function. Inspired by mythology and crafted with expert Italian workmanship, the Boat of Sage adds elegance, movement, and warmth to any contemporary or classical space. Its flowing lines and reflective surfaces create a striking focal point while efficiently drying towels and heating interiors. This piece is perfect for those seeking a designer towel warmer that transforms everyday utility into a timeless statement piece.

Turning every bath into a moment of spiritual rejuvenation and artistic experience.

To me, the bathroom is more than a place to wash away the dust of the world—it is a private sanctuary, a spiritual island where we can escape the mundane and reconnect with ourselves. As water flows over the skin, we shed our external identities, facing our truest selves. It is in this intimate dialogue that I conceived “Boat of Sage”, a work meant to imbue this personal space with deeper philosophical meaning.

Crafted from cold, resilient stainless steel, its metallic sheen reflects both the toughness and iinortality of wisdom, while also evoking the solitude and discipline required on the path of discovery. Shaped like a small boat and mounted on the bathroom wall, it is a vessel moored in the harbor of the soul. Every etched texture tells a story of contemplation, time, and the accumulation of insight.

Sages are often solitary explorers, unsatisfied with superficial appearances and driven by the pursuit of truth. Boat of Sage embodies this spirit, carrying the owner’s yearning for knowledge and encouraging brief voyages beyond the noise of daily life. Within this tiny space, one can contemplate philosophy, explore science, or perceive art—sailing freely on the currents of thought.

Beyond being a sculptural stainless steel towel radiator, Boat of Sage is a mirror to the inner self. It reminds us that in a world abundant with material comforts, we must still nourish the spirit. In the gentle murmur of water, this small sanctuary becomes a space for reflection, growth, and transcendence—turning every bath into a moment of spiritual rejuvenation and artistic experience.

Golden Antlers

The Golden Antlers is a luxury towel warmer inspired by the organic beauty and strength of deer antlers. Symbolizing vitality and majesty, it transforms a practical towel warmer into a sculptural centerpiece for an array of interiors.

Created with a renowned sculptor, this designer towel warmer showcases meticulous craftsmanship.

The flowing antler tines provide an artistically organic and versatile hanging surface area.

Its branching form provides versatile hanging space while serving as a statement of strength and elegance.

Inspired by Nature, Crafted for Luxury

The Golden Antlers was created as a tribute to the beauty and vitality of the forest. At P&Bhusri, we see design as a poetic connection between nature and life, and this sculptural towel radiator takes inspiration from the deer—an animal admired for its graceful form and symbolic meaning.

Across cultures, deer represent unity, wisdom, and strength. Their movement through the forest reflects freedom and harmony with nature, echoing our own philosophy of balance and sustainability. By shaping these qualities into a radiator, we bring the spirit of the natural world into everyday living.

The name Golden Antlers reflects both form and value: branching antlers, transformed into a striking structure, and gold, symbolizing rarity and timeless worth. In collaboration with a master sculptor, we

reimagined the branching lines into a versatile towel rack. Its elegant rods provide multiple hanging spaces for towels and bath sheets—combining practicality with refined artistry.

Crafted with exquisite detail, the Golden Antlers is more than a towel warmer. It is a sculptural centerpiece that carries the philosophy of nature into the home, uniting function, beauty, and spirit in one timeless creation.

The Fountain of Youth

The Fountain of Youth luxury towel warmer signifies the human desire for eternal youth and rejuvenation.

Created in collaboration, this collection embodies lightness and movement - it's form floats gracefully, yet stands with a timeless presence and as a reminder of our collective yearning for vitality.

The Fountain of Youth embodies both lightness and strength—its form appears to float gracefully, yet stands with

powerful presence. This unique balance creates a focal point that transforms any bathroom into a serene, luxurious retreat.

Endless Vitality for the Modern Bathroom

The Fountain of Youth takes its inspiration from the eternal flow of spring water—nature’s symbol of vitality, health, and renewal. In mythology and feng shui alike, water represents blessings, abundance, and the promise of life. This sculptural towel radiator brings those qualities into the bathroom, turning an everyday space into a sanctuary of well-being.

Part of the Flowing Light and Phantom Series, the Fountain of Youth blends artistry with function. Its sculptural form captures the dynamic beauty of flowing water, with light and shadow dancing across its surface like rippling springs. The result is a design that feels alive, both calming and uplifting.

Created in collaboration with a renowned sculpture master, this piece is as practical as it is beautiful. Ingeniously staggered brackets and integrated hooks allow towels to hang separately, ensuring hygiene and preventing bacterial growth. With space for multiple towels, it combines elegance with everyday convenience. The Fountain of Youth is more than a towel warmer—it is a living artwork that embodies vitality, health, and good fortune. Designed for those who value beauty and meaning, it transforms the bathroom into a personal retreat filled with warmth, energy, and harmony.

Provence

In the world of luxury home comfort, P&Bhusri presents the Provence towel warmer—a perfect fusion of function and poetic form.

Inspired by the weathered rocks standing tall on the Gobi Desert, this towel warmer embodies the timeless strength and unyielding resilience forged by years of wind and rain. Its bold, resolute lines blend artfully with subtle curves, creating a silhouette that exudes power amid elegance—just like those rugged yet steadfast rocks, brimming with inherent tension. Refined through meticulous craftsmanship, it seamlessly complements both modern and classic interiors,

infusing spaces with a unique aesthetic of strength.

More than a towel rack, Provence is warmth made tangible and spirit made visible. On chilly mornings or cool evenings, it gently heats and dries towels by optimizing air circulation and accelerating moisture evaporation. Beyond daily freshness and hygiene, it carries the tenacity of nature and the ingenuity of craftsmanship—an artistic statement paying tribute to every pursuer forging ahead in life.

Luxury Designer Towel Warmer Inspired by Nature

The Provence by P&Bhusri is a luxury towel radiator inspired by the timeless strength of weathered rocks in the Gobi Desert. Shaped by wind and rain yet standing tall, these stones embody endurance and resilience—qualities captured in Provence’s sculptural form.

Unlike conventional designs, Provence blends bold, resolute lines with subtle elegance, creating a powerful yet refined silhouette. Its unique single-sided opening structure makes towel placement effortless, while the optimized flat surface promotes air circulation and rapid evaporation. The result: quick-drying, hygienic towels with daily ease of use.

More than a designer towel warmer, Provence is functional art. It transforms the bathroom into a space of strength and serenity, combining resilience, craftsmanship, and practicality. A statement piece for those who value both beauty and purpose in everyday living.

Crete Palace

The Crete Palace is a luxury floor-standing towel radiator that combines elegance, craftsmanship, and practicality. Designed as a statement piece, it transforms your bathroom into a refined sanctuary, affords meticulous attention to detail.

It's design juxtaposes the formative landscapes and layered architecture of classical civilizations in the Mediterranean.

A Towel Warmer Steeped in History

The Crete Palace by P&Bhusri draws inspiration from the grandeur of ancient civilizations and the majestic palaces that have shaped human history. Its stepped, layered design echoes the monumental architecture of classical eras, where every level told a story of progress, culture, and artistry. This floor-standing towel radiator transforms a practical bathroom accessory into a tribute to human ingenuity and timeless elegance.

Part of the Master Series , Crete Palace blends the refinement of classical design with contemporary functionality. The sculptural form provides generous surface area for towels and bathrobes, ensuring quick drying, optimal airflow, and daily comfort.

Ideal for spacious bathrooms, Crete Palace serves as both a functional heating solution and a statement piece. It brings the spirit of history, cultural sophistication, and enduring artistry into your home, turning everyday routines into a celebration of heritage and luxury.

Daphne’s Branch

Daphne’s Branch is a sculptural designer towel warmer inspired by the graceful form of tree branches. Its artistic silhouette brings the beauty of nature into the bathroom, transforming a functional heating element into a statement of elegance and warmth.

More than an artwork, Daphne’s Branch delivers outstanding performance. Its electric heating system ensures quick drying, even heat distribution, and protection against dampness and bacteria—creating a bathroom environment that is fresh, hygienic, and comfortable all year round.

Designed with modular flexibility, Daphne’s Branch can be configured as a single set, double set, or triple set, adapting perfectly to different bathroom configurations and sizes.

A Myth Carved Into Design

Design is often a romantic narrative, woven from myths and inspired by nature. The story of Daphne’s Branch is rooted in Greek mythology, where Daphne, pursued by Apollo, transformed into a laurel tree to preserve her purity. In this eternal gesture, she embodied both sacrifice and beauty—qualities that inspired the spirit of this creation.

The flowing lines and branching form echo nature’s vitality, serving as a bridge between myth and modern living. It is both sculpture and function, bringing poetry into everyday life.

Structurally, Daphne’s Branch adopts a three-section modular design, breaking free from the rigid conventions of traditional towel radiators. Whether in a compact bathroom or a spacious interior, it

can be configured as one, two, or three sections—flexible enough to suit any setting. Each branch becomes a carrier of creativity: used alone as a statement piece or combined to form a lush, sculptural whole.

By merging art with practicality, Daphne’s Branch transforms storage into an experience. It creates a dynamic, poetic atmosphere in the bathroom, allowing the legendary beauty of myth to take shape in daily life.

Tuscany Glimmer

The Tuscany Glimmer premium electric heated towel warmer is inspired by the rolling landscapes and natural beauty of the Tuscan hills. The organic, offset design flows like the countryside.

Suitable for many interior designs, Tuscany Glimmer transforms everyday routines into a sensorial experience. With a quiet, luminous presence, it infuses warmth, mystery, and Italian-inspired romance into your home.

A Brilliant Moment of Enlightenment

Design is the journey of transforming abstract ideas into tangible art. The Tuscany Glimmer, the inaugural piece of the Master Series, draws inspiration from radiant light, symbolizing the brilliant moment of wisdom—like the first ray of dawn piercing through the clouds. It represents justice, hope, and an endless flow of positive energy.

Featuring a unique single-sided opening, this towel warmer breaks free from traditional forms. It allows towels to be hung easily while creating a light, dynamic visual presence. Compact and elegantly proportioned, it is ideal for small bathrooms, maximizing storage without occupying unnecessary space. Paired with delicate towels, it achieves a perfect balance of function and beauty.

Its finely plated surface shimmers with a luminous glow. As light interacts with every curve, it evokes the soft radiance of a Tuscan dawn, bringing warmth, artistry, and sophistication into the home. Tuscany Glimmer is more than a towel warmer—it is a functional work of art, infusing even the smallest spaces with brilliance, elegance, and life.

Verona

In northern Italy, Verona stands timeless, its streets and squares steeped in history and culture. The Verona electric heated towel rail captures the essence of this legendary city.

Every touch evokes the city’s romantic whispers, transforming everyday routines into moments of intimacy and elegance.

This towel warmer offers functional design to maximize heat exposure along with subtle details, creating one of our most popular collections.

Usable sculpture, warmth in the everyday.

I define Verona as “a usable sculpture, warmth in the everyday.”

Rooted in the practicality of traditional towel racks, it reinterprets form through a sculptural language—its lines are clean, fluid, and deliberate, free of ornate decoration, retaining only the minimalist silhouette that stands the test of time. This reflects the wisdom of medieval craftsmanship: in simplifying the complex, the design distills comfort and reassurance that endure through the ages. This elegance of “simplicity” ultimately serves everyday life. Naming

it Verona was not only a way to convey timeless, classic quality but also to bring it into the intimacy of daily routines. When a towel hangs over its crisp lines, or when your gaze passes over it during morning rituals, it ceases to be a cold object. Instead, through restrained aesthetics, it adds a subtle, enduring warmth to ordinary moments.

True artistic classics can withstand the test of time
and interpretations from diverse perspectives.

ART CLASSICS

K015

With its striking fishbone silhouette, the K015 commands attention at first glance. Bold, avant-garde, and full of innovative spirit, it transforms the bathroom into a stage where design itself performs. Its sculptural presence is more than functional—it becomes a visual rhythm, lending charm and dynamism to the surrounding space.

Yet artistry here meets ease. Towels rest effortlessly along its streamlined form, a gesture of everyday convenience elevated to ritual - proof that simplicity can hold profound elegance.

When the K015 enters your home, it is not merely a towel warmer, nor solely an ornament. It is both: a sculptural object of character and a trusted companion in daily life.

K102

Like the resonant sounds of a bagpipe, the K102 reimagines the towel warmer as a vertical composition of harmony and form. Its three upright heating elements rise with sculptural grace, creating a design that is at once practical and poetic.

Minimal in adornment, every line flows with clarity, every detail holds intention—merging utility with timeless elegance. Towels, arranged vertically, seem to fall into rhythm with its structure, creating order and spaciousness even within the most compact bathrooms. In small spaces, it performs like a magician: freeing movement, expanding light, and elevating comfort.

Behind its refined silhouette lies advanced innovation. A concealed installation system preserves purity of form. The carbon fiber heating core provides rapid, even warmth—maintenance-free, efficient, and enduring. Subtle light glows from within as it works, imbuing the space with quiet sophistication.

More than a towel warmer, the K102 is an embrace of art and function—a vertical symphony of warmth, elegance, and space.

K103

Inspired by the resilience of the cactus, the K103 electric towel rack combines bold design with seamless craftsmanship. Its sculptural silhouette transforms the bathroom into a space of vitality and charm, while its integrated molding ensures elegance without interruption. Beyond function, it warms and dries towels with gentle care, turning winter mornings into moments of comfort and artistry. A statement piece that blends nature’s energy with refined living.

K05

K05 reflects the elegance of European classicism with its bamboo joint-inspired seams and elegant silhouette. It pairs historical grandeur with modern functionality through its built-in thermostat. Chosen by European luxury hotels, it is a testament to craftsmanship and heritage. K05 combines practical warmth with vintage aesthetics, bringing classical charm into everyday life. It is a living treasure, illuminating any bathroom space with poise and sophistication.

It conveys an elegant yet practical attitude
towards life through clean lines, finishes and tex-
tures.

MODERN CLASSICS

G28

The G28 single electric towel rack by P&Bhusri is a high-end masterpiece crafted for narrow bathroom spaces. Its elegant single-pole design breaks traditional constraints, fitting seamlessly into tight corners without occupying extra room.

Equipped with advanced carbon fiber heating technology, it delivers rapid, even warmth, quickly drying towels while dispelling dampness and cold. At the same time, it helps reduce bacterial growth, safeguarding your health and hygiene.

Every detail reflects exquisite craftsmanship, where artisanal skill meets modern technology. Sleek and understated, the G28 complements minimalist, light-luxury, or contemporary bathrooms, transforming compact spaces into comfortable, dry, and refined sanctuaries.

G27

G27 is a vertical towel rack with an ingenious design. Its simple and generous lines exude elegance, while every detail reflects subtle refinement. Perfect for narrow spaces, it feels as if it was created to solve space challenges. Optional digital controls add functional wisdom to its minimalist form. In modern spaces, G27 quietly delivers convenience and comfort, transforming daily routines into moments of luxury. In boutique hotel bathrooms, it brings warmth and charm, offering a uniquely personal experience.

G22

The design of G22 does not pursue short-lived fashion trends but adheres to an eternal design concept, perfectly integrating traditional aesthetics with modern needs.

The unique cross bar design of G22 is arranged in an orderly manner, providing spatial aesthetics. The spacing between the cross bars has been carefully considered, which ensures sufficient room to hang and dry towels.

From the visual effect, orderly arranged cross-bars increase the sense of layering and three dimensionality of the towel rack. When towels are hung on the cross bars, the offset rails provide advanced heat exposure and add a vivid beauty the space.

G06

The G06 redefines the way you use a towel rack. Each crossbar rotates independently, giving you unmatched flexibility for hanging towels, exactly how you need. Its 180° damping limit keeps the bars steady, preventing accidental collisions with walls and ensuring safe, worry-free use.

Intuitive digital temperature control makes adjusting warmth effortless.

Thoughtful, practical, and innovative, the G06 combines smart design with everyday convenience. It's more than a

towel rack—it's a versatile, reliable companion that adapts to your lifestyle, making your daily routines easier, safer, and more comfortable.

G12

G12 stands out with its minimalist style. The rough electrical installation and concealed electrical design result in a truly high-end experience. It is fashionable and simple, and can blend with any decoration style.

The G12 is sleek and ingenious. The rails can be combined in multiples to marry form and function. It's also equipped with its own built-in digital temperature control.

LIMITED WARRANTY

Eff. 11/2025

Most of our products or parts carry a “Limited Warranty” against manufacturing defects as defined below.

**P&Bhusri Electric Heated Towel Warmer Unit
– 2 Year Limited Warranty**

**P&Bhusri Wall Mount Knob or Digital Temperature Controls
– 2 Year Limited Warranty**

P&BHUSRI OFFERS A 5 YEAR LIMITED WARRANTY ON THE FOLLOWING FINISHES ONLY:

Polished Chrome and All Powder Coated "Colors" Published In the Price Catalog

P&BHUSRI OFFERS A LIMITED LIFETIME WARRANTY ON THE FOLLOWING FINISHES ONLY:

All Metallic "PVD" Finishes Published in the Price Catalog

P&BHUSRI DOES NOT OFFER AN EXPRESS WARRANTY FOR THE FOLLOWING FINISHES ON ANY OF IT’S PRODUCTS:

Any Special Order or Approved Custom Unpublished Finish

P&Bhusri’s Commitment

A “Limited Warranty” means P&Bhusri US, LLC will provide free of charge, at its option, replacement part(s) or product (or a comparable alternative product) to replace those which have proven defective in materials or workmanship within the warranty period on that product or part as stated above. P&Bhusri US, LLC will not assume liability for any labor expended, freight cost or damages accruing from the use of the material purchased from us. If material is defective, the limit of damage is the price of the defective material. Proof of purchase (original sales receipt) from the original consumer purchaser must be made available to P&Bhusri US, LLC for all warranty claims. The warranty is not transferable and is extended solely to the original purchaser of the product, so long as the product remains in its original installation by a licensed electrical installer.

Warranty Exclusions and Disclaimers

This Warranty is for normal domestic use only and excludes defect or injury caused by or resulting from misuse, abuse, neglect, accidental damage or improper installation. IN NO EVENT WILL P&BHUSRI BE LIABLE FOR ANY SPECIAL, INCIDENTAL, OR CANNOT HYPENATE THIS WORD DAMAGES BASED ON BREACH OF WARRANTY, BREACH OF CONTRACT, NEGLIGENCE, STRICT TORT, OR ANY OTHER LEGAL THEORY. DAMAGES THAT P&BHUSRI WILL NOT BE RESPONSIBLE FOR INCLUDE, BUT ARE NOT LIMITED TO: LOSS OF PROFITS; LOSS OF SAVINGS OR REVENUE; LOSS OF USE OF THE PRODUCT OR ANY ASSOCIATED EQUIPMENT; COST OF CAPITAL; COST OF ANY SUBSTITUTE EQUIPMENT, FACILITIES, OR SERVICES; DOWNTIME; THE CLAIMS OF THIRD PARTIES, INCLUDING CUSTOMERS; AND DAMAGES OR INJURY TO PROPERTY.

This warranty gives you specific legal rights and you may also have other rights that vary from state to state. In addition, the Limited Lifetime Warranty and term Limited Warranties do not apply to products purchased from unauthorized P&Bhusri distributors or resellers, products relocated after initial installation, products which have defects or damage which result from improper installation, products which have been installed contrary to P&Bhusri’s printed installation manual, products which have been exposed to ammonia, bleach or other abrasive cleaning products, or stained products resulting from hard water minerals, ferrous water or salty water. Due to the harsh environment of sun, wind, rain and snow, installing P&Bhusri product for outdoor use voids the warranty.

General Disclaimer

All warranties other than the express Limited Warranty herein contained, including but not limited to any implied warranty of merchantability or fitness for a particular purpose, are limited in duration to the applicable warranty period set forth above, or the applicable limitations period set by your state, whichever is shorter. Some states do not allow limitations on how long an implied warranty lasts and some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you.

No Other Warranties

Unless modified in a writing signed by both parties, this agreement is understood to be the complete and exclusive agreement between the parties, superseding all oral or written prior agreements and all other communications between the parties relating to the subject matter of this agreement, including statements made by salespersons of the company or independent third-party manufacturer sales representatives. No employee of P&Bhusri or any other party is authorized to make any warranty in addition to those made in this agreement. The buyer is warned, therefore, to check this agreement carefully to see that it correctly reflects those terms that are important to the buyer.

Foreign Outlets Online

One of the benefits of the Internet is that it has granted consumers the opportunity to learn about and purchase products from previously unknown foreign companies. Some foreign distributors may offer to sell the foreign versions of P&Bhusri products and have promoted these products for shipment to the United States. These products are not designed to be installed in American homes and significant problems may result. P&Bhusri uses authorized domestic distributorsto ensure that its products meet American or Canadian electrical installation standards and have American or Canadian electrical code approvals. P&Bhusri US, LLC will not service, warrant, nor provide customer support for product purchased from foreign distributors.

Commercial Limited Warranty

P&Bhusri warrants its products installed in a commercial application to be free from manufacturing defects for a period of one (1) year from the date of acquisition by original owner. IN COMMERCIAL INSTALLATIONS, THE ONE-YEAR LIMITED WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO THE IMPLIED WARRANTIES OF MERCHANT-ABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

Authorized Dealer Return & Restock Policy

P&Bhusri is committed to the quality of our products and the satisfaction of our dealer partners. This policy outlines the procedures for returning products and applicable restocking fees.

General Return Conditions.

Product returns must be initiated within thirty (30) days from the original invoice date.

All returned merchandise must be in original, unopened packaging and in resalable condition. The following items are not eligible for return: products that are installed, used or show signs of wear; special order finishes or custom products; commercial project order items; any clearance or final-sale items. A copy of the original invoice or purchase order is required for all returns.

Returns Process.

The authorized dealer must contact customer service to request a Return Goods Authorization (RGA) before sending any items back. The RGA# must be included with outer shipping label of the returned package. The dealer is responsible for all shipping return costs. P&Bhusri is not responsible for lost or damaged return shipments. All returns will be inspected upon receipt at our warehouse to determine their condition and final eligibility for credit.

Restocking Fees.

All eligible returned items are subject to a 25% restocking fee. The restocking fee will be deducted from the credit amount for all standard returns. Restocking fees may be reduced or waived in certain circumstances, at the discretion of P&Bhusri.

Damaged or Defective Items.

Claims for damaged or defective material must be made immediately upon receipt. P&Bhusri customer service will provide specific instructions for documenting and/or returning damaged or defective materials for credit.

LIFE IS ART.

Practical Technology Design Aesthetics.

At P&Bhusri, we strive to source materials and manufacture our products in an eco-friendly and environmentally sustainable manner. It is part of our mission to create a better living environment for you and the world around us.

P&Bhusri is determined to work with customers around the world to create a standard of functional elegance.

Promise a better future

P&Bhusri's Commitment: Our customers around the globe deserve a product of the highest quality and design, tailored to your unique tastes, and satisfying a collective pursuit of lifestyle and wellness.

LIFE IS ART.
